Ambidextrous Belt Holsters - 2 Loops

- Very popular belt holsters comfortable to use with either hand
- Two belt loops provide maximum stability on the belt
- Three sizes - small (201), medium (202), and large (203) - each of them delivered to fit several types of handguns
- Provide very secure fitting and carrying of the handgun
- Double closure with riveted snap fastener adjustable in length and size of compartment using VELCRO strips allowing if necessary handgun retaining over the grip

Multivariable Belt Holster

- Ambidextrous, comfortable use for both right and left handers
- Maximum variability of the use allowing 5 positions of holster carrying with gun on the belt (see Fig. 1)
- Double-shell of the holster covers the closure
- Two-piece quick closure adjustable in length and site using VELCRO strips allow retaining of the gun over the grip.
- Closure is provided by removable dual retention provisions

Separate instruction manual

H-IWB

Kydex Hybrid Holster - Inside

NEW

Kydex holsters

- consist of a shaped Kydex casing and layered textile liner
- the Kydex casing is industrially manufactured by vacuum forming in specially adapted gun moulds
- the shape of the casing reduces the risk of damage to the surface of the gun by rubbing
- the new textile liner stiffened with plastic film wicks sweat away and increases the comfort of wearing

922 H/IWB

Kydex holster inside right
GLOCK 17

CZ P-10

920 H/IWB

Kydex holster inside right
GLOCK 17

930 H/IWB

Kydex holster inside right
CZ P-10

Advantages of our Kydex holsters

- reduced risk of damage to gun surface by abrasion on profile of casing industrially manufactured in specially adapted gun moulds
- significant increase in comfort of holster wearing due to new layered textile liner stiffened with plastic film and having a soft mesh on the inner side to wick away sweat

Moulded Belt Holsters

Moulded Belt Holsters

- Much-favoured belt holsters, their external side is moulded in such a way so as to create space between the body and the holster for quick drawing, esp. re-holstering of the gun
- Two belt loops secure maximum stability for carrying the gun in the holster
- Double quick-fastening with adjustable length

Ladies bag

Ladies bag with adjustable shoulder strap for concealed carry of weapons or other defensive resources. This pocket has a vertical zip with slider and is intended for carrying a short firearm or other defensive resources (pepper spray, stun gun, money etc.). The weapon is secured in a stable position by a Velcro strip.

It can be worn over the shoulder, but if a weapon is being carried, it is always worn over the chest to prevent the bag and weapon being pulled off the shoulder!

DLS[®]

DASTA - LOCK SPORT

830 DLS a 835 DLS for sport shooting

DLS DASTA LOCK-SPORT

- The holsters for sport shooting are made with short casing as model 830 DLS and long casing as model 835 DLS
- The gun is automatically secured inside the holster by spring-loaded component which has arcuate shape.
- To holstering your weapon into the case with the trigger guard between the two vertical segments of the lock, apply pressure from the top on the grip panel and the weapon is automatically secured inside the case at the trigger guard.
- DLS system secures the gun against falling out. Not against unauthorized removal of the gun.
- Speed Holsters are designed especially for competition purposes.
- The advantage of a Speed holster is that competitor may draw the handgun faster.
- All holsters model DLS are supplied with both types of belt harness - sport (SZ) and rotating (OZ).

PROFI - TACTICAL Holster with Rubber Inter-Lining

PROFI Tactical and Belt holsters with Rubber Inter-Lining

- Screwed holsters with exchangeable rubber inter-lining moulded according to the gun type.
- Two basic models differentiating only in the size of the shell: Model 258 standard (large) for pistols with barrel 5" and Model 260 compact (small) for compact pistols.
- Textile casing is reinforced with plastic sheet 0,8mm and external plastic reinforcement for mounting the belt rig or tactical rig (designation TZ).
- Tactical holsters are made with wide cover flap B (TZ-B) or basic set without cover flap (TZ).
- Stabilisation base TZ has flexible mounting strip with non-slip straps.
- Two-piece fastening with dual retaining (drug and secure straps).
