### Ambidextrous Belt Holsters - 2 Loops

- Very popular belt holsters comfortable to use with either hand
- Two belt loops provide maximum stability on the belt
- Three sizes - small (201), medium (202), and large (203) - each of them delivered to fit several types of handguns
- Provide very secure fitting and carrying of the handgun
- Double closure with riveted snap fastener adjustable in length and size of compartment using VELCRO strips allowing if necessary handgun retaining over the grip

### Multivariable Belt Holster

- Ambidextrous, comfortable use for both right and left handers
- Maximum variability of the use allowing 5 positions of holster carrying with gun on the belt (see Fig. 1)
- Double-shell of the holster covers the closure
- Two-piece quick closure adjustable in length and site using VELCRO strips allow retaining of the gun over the grip.
- Closure is provided by removable dual retention provisions

Separate instruction manual

# H-IWB

## Kydex Hybrid Holster - Inside

**NEW**

### Kydex holsters

- consist of a shaped Kydex casing and layered textile liner
- the Kydex casing is industrially manufactured by vacuum forming in specially adapted gun moulds
- the shape of the casing reduces the risk of damage to the surface of the gun by rubbing
- the new textile liner stiffened with plastic film wicks sweat away and increases the comfort of wearing

### 922 H/IWB

Kydex holster inside right  
GLOCK 17

### 932 H/IWB

CZ P-10C

### 920 H/IWB

Kydex holster inside right  
GLOCK 17

### 930 H/IWB

Kydex holster inside right  
CZ P-10C

### Advantages of our Kydex holsters

- reduced risk of damage to gun surface by abrasion on profile of casing industrially manufactured in specially adapted gun moulds
- significant increase in comfort of holster wearing due to new layered textile liner stiffened with plastic film and having a soft mesh on the inner side to wick away sweat

## Moulded Belt Holsters

### Moulded Belt Holsters

- Much-favoured belt holsters, their external side is moulded in such a way so as to create space between the body and the holster for quick drawing, esp. re-holstering of the gun
- Two belt loops secure maximum stability for carrying the gun in the holster
- Double quick-fastening with adjustable length

## Thumb-Break Shoulder Holster

### Thumb-Break Shoulder Holster

- Combines advantages of carrying a gun with longer barrel in a vertical position and option for quick drawing from horizontal position
- Delivered for pistols with the 5" barrel length and revolvers with 4" barrel
- Leather quick-closure with riveted snap fastener is opened by forward twitch while grasping the gun by the grip
- Anti-rocking safety of the closure is formed by half-circle perforation around the patent fastener
- Two-piece shoulder holster having upper part reinforced with non-deformable material
- Produced in one side version, one shoulder rig or cross rig

### PLASTIC HOLSTER DASTA-LOCK BLOCK

#### third generation holsters

1. original construction with fully new characters of plastic holsters
2. single profile of holster cover – universal for different guns
3. carrying element of the holster – lock DASTA with automatic safety and distance cube making possible easy change for any gun
4. width of the lock regulated according to the width of the trigger shield for individual gun type (see the Table)
5. holster modification – for duty or concealed carrying of the gun
6. possibility to block the auto security systém
7. Thumb-spring
  - Tactical holsters have always mechanical thumb-spring

DASTA - LOCK SPORT

## 830 DLS a 835 DLS for sport shooting

### DLS DASTA LOCK-SPORT

- The holsters for sport shooting are made with short casing as model 830 DLS and long casing as model 835 DLS
- The gun is automatically secured inside the holster by spring-loaded component which has arcuate shape.
- To holstering your weapon into the case with the trigger guard between the two vertical segments of the lock, apply pressure from the top on the grip panel and the weapon is automatically secured inside the case at the trigger guard.
- DLS system secures the gun against falling out. Not against unauthorized removal of the gun.
- Speed Holsters are designed especially for competition purposes.
- The advantage of a Speed holster is that competitor may draw the handgun faster.
- All holsters model DLS are supplied with both types of belt harness - sport (SZ) and rotating (OZ).

## PROFI - TACTICAL Holster with Rubber Inter-Lining

### PROFI Tactical and Belt holsters with Rubber Inter-Lining

- Screwed holsters with exchangeable rubber inter-lining moulded according to the gun type.
- Two basic models differentiating only in the size of the shell: Model 258 standard (large) for pistols with barrel 5" and Model 260 compact (small) for compact pistols.
- Textile casing is reinforced with plastic sheet 0,8mm and external plastic reinforcement for mounting the belt rig or tactical rig (designation TZ).
- Tactical holsters are made with wide cover flap B (TZ-B) or basic set without cover flap (TZ).
- Stabilisation base TZ has flexible mounting strip with non-slip straps.
- Two-piece fastening with dual retaining (drug and secure straps).
