**DASTA SPORT**

### Ambidextrous Belt Holsters - 2 Loops

- Very popular belt holsters comfortable to use with either hand
- Two belt loops provide maximum stability on the belt
- Three sizes - small (201), medium (202), and large (203) - each of them delivered to fit several types of handguns
- Provide very secure fitting and carrying of the handgun
- Double closure with riveted snap fastener adjustable in length and size of compartment using VELCRO strips allowing if necessary handgun retaining over the grip

## Moulded Belt Holsters

### Moulded Belt Holsters

- Much-favoured belt holsters, their external side is moulded in such a way so as to create space between the body and the holster for quick drawing, esp. re-holstering of the gun
- Two belt loops secure maximum stability for carrying the gun in the holster
- Double quick-fastening with adjustable length

## Thumb-Break Shoulder Holster

### Thumb-Break Shoulder Holster

- Combines advantages of carrying a gun with longer barrel in a vertical position and option for quick drawing from horizontal position
- Delivered for pistols with the 5" barrel length and revolvers with 4" barrel
- Leather quick-closure with riveted snap fastener is opened by forward twitch while grasping the gun by the grip
- Anti-rocking safety of the closure is formed by half-circle perforation around the patent fastener
- Two-piece shoulder holster having upper part reinforced with non-deformable material
- Produced in one side version, one shoulder rig or cross rig

## 750 /750-1 PHDLB Plastic holsters for concealed carrying

### PLASTIC HOLSTER DASTA-LOCK BLOCK

#### third generation holsters

1. original construction with fully new characters of plastic holsters
2. single profile of holster cover – universal for different guns
3. carrying element of the holster – lock DASTA with automatic safety and distance cube making possible easy change for any gun
4. width of the lock regulated according to the width of the trigger shield for individual gun type (see the Table)
5. holster modification – for duty or concealed carrying of the gun
6. possibility to block the auto security systém
7. Thumb-spring
  - Tactical holsters have always mechanical thumb-spring

## PROFI - TACTICAL Holster with Rubber Inter-Lining

### PROFI Tactical and Belt holsters with Rubber Inter-Lining

- Screwed holsters with exchangeable rubber inter-lining moulded according to the gun type.
- Two basic models differentiating only in the size of the shell: Model 258 standard (large) for pistols with barrel 5" and Model 260 compact (small) for compact pistols.
- Textile casing is reinforced with plastic sheet 0,8mm and external plastic reinforcement for mounting the belt rig or tactical rig (designation TZ).
- Tactical holsters are made with wide cover flap B (TZ-B) or basic set without cover flap (TZ).
- Stabilisation base TZ has flexible mounting strip with non-slip straps.
- Two-piece fastening with dual retaining (drug and secure straps).
