

PROFI - TACTICAL Holster with Rubber Inter-Lining

PROFI Tactical and Belt holsters with Rubber Inter-Lining

- Screwed holsters with exchangeable rubber inter-lining moulded according to the gun type.
- Two basic models differentiating only in the size of the shell: Model 258 standard (large) for pistols with barrel 5" and Model 260 compact (small) for compact pistols.
- Textile casing is reinforced with plastic sheet 0,8mm and external plastic reinforcement for mounting the belt rig or tactical rig (designation TZ).
- Tactical holsters are made with wide cover flap B (TZ-B) or basic set without cover flap (TZ).
- Stabilisation base TZ has flexible mounting strip with non-slip straps.
- Two-piece fastening with dual retaining (drug and secure straps).
